AND ENJOYED WITH LOVED ONES

**HOME IS WHERE
THE HEART IS**

WHY CHOOSE HEARTRIDGE FLOORS?

At Heartridge, we believe beautiful floors are the heart of any home. Part of the Dunlop Flooring group, leaders in the underlay industry for over 50 years, flooring has always been our passion.

We search the globe for the latest in flooring innovation and select only the most beautiful colour variations that nature can provide us.

Available in Engineered Timber, Hybrid Plank, Luxury Vinyl Plank and Vinyl Plank, Heartridge is the perfect flooring option to make your space a place to come home to.

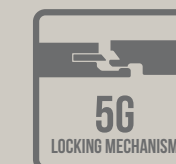

TIMBER THAT LEAVES A LASTING IMPRESSION

Engineered timber offers the premium look and rugged character of real hardwood floors without the drawbacks. Combining style and stability, each board has been carefully graded to provide the most beautiful timber look, while a three-layered core prevents warping or cracking. They're also easy to maintain with a UV resistant coating that protects against fading to ensure your floors retain their natural beauty for many years to come.

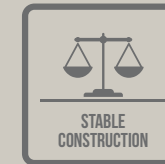

BUILT TO WITHSTAND THE FLOW OF DAILY LIFE

Built to last with a 20 Year Residential Surface Guarantee you can feel at ease knowing your floors will stand the test of time.

FAST AND EASY INSTALLATION

Our Engineered Timber floors use a 5G click locking system for easier installation that is twice as fast as older systems. The boards come ready-to-go with a plastic tongue that just clicks into place for a stronger, more reliable floor.

LAYERED TO LAST

Thanks to the multi-layered construction, our Engineered Timber is designed for strength and durability.

Each plank is layered with a 3mm thick, real oak veneer that matures naturally with age, while a pine core provides optimal stability underfoot.

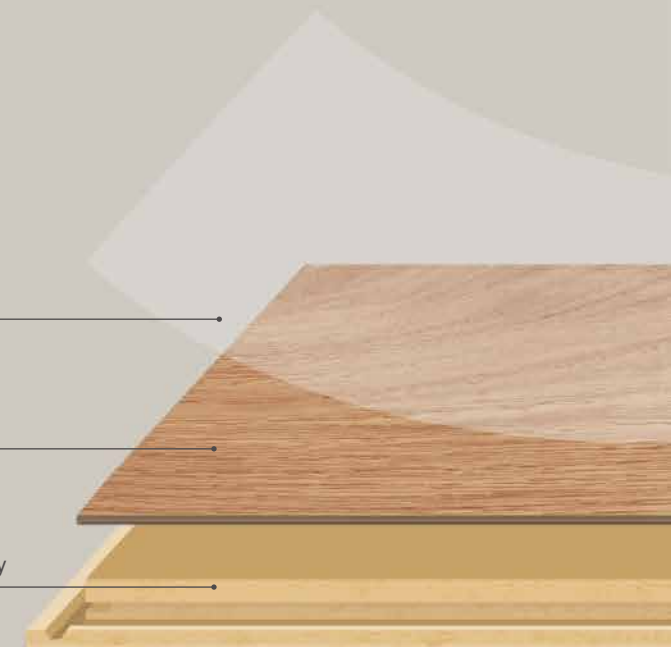

COATED FOR SURFACE PROTECTION

Over time, oak floors will sustain wear from everyday life, but our Engineered Timber comes equipped with a **Klumpp coating**, a world leader in surface protection. The timber is shielded by a UV-cured urethane that provides superior wear resistance to help keep your timber floor in great condition.

UV-Cured urethane coating
for superior wear resistance

3mm Oak Veneer

Pine core for optimal construction stability

Plank Size: 14 x 190 x 1900mm

MANDALAY

ENHANCE THE BEAUTY OF YOUR HOME

Our Engineered Timber is designed to allow your home to be transformed by the distinctly sophisticated look and feel of an authentic timber floor. We have designed the range to the highest standards of manufacturing, comprising a 5G click lock, micro-bevelled edges and a brushed and lacquered surface, making it a floor worthy of the finest home.

ACOUSTICALLY SOUND

As more people choose multilevel, residential living, the issue of sound insulation has never been more important. Whether it's in a townhouse, apartment, or two-storey home, the sound of footsteps, moving furniture or falling items can be annoying.

To tackle this problem, Dunlop has a complete range of hard flooring underlays for all flooring applications that easily surpass the industry standard set by the National Construction Code (formerly known as BCA).

GENTLER ON THE ENVIRONMENT

You can be confident that all Heartridge timber flooring has been sourced from sustainable forests. We go to great lengths to ensure our suppliers comply with international standards of legal and sustainable logging through the provision of Chain of Custody documentation and Harvest/Transport Certificates for every single batch of product we sell.

LOW MAINTENANCE

Maintaining the beauty of your hardwood floors is easy. Simply wipe with a damp or dry cloth to always keep them looking their best.

ORINOCO

A COLOUR TO COMPLEMENT ANY SPACE

Our Riviera Oak range affords the luxury of choice; whether you're looking for a deeply rich and warm hue or a colour that is synonymous with the sun-warmed gold of a coastal beach.

EASY TO CLEAN

We recommend the use of Bona Floor Care products to keep your floors looking brand new and your home beautiful.

AN IMMACULATE HOME IN 2 SIMPLE STEPS

- Remove loose dirt, grit and dust with a **Bona Dusting Pad**. If using a vacuum cleaner, ensure the cleaning head has a soft brush to prevent the occurrence of scratches to the floor surface.
- Use a **Bona Spray Mop** with **Bona Wood Floor Cleaner** for a spotless finish.

AUSTRALIA'S MOST TRUSTED UNDERLAY FOR YOUR HARD FLOORING

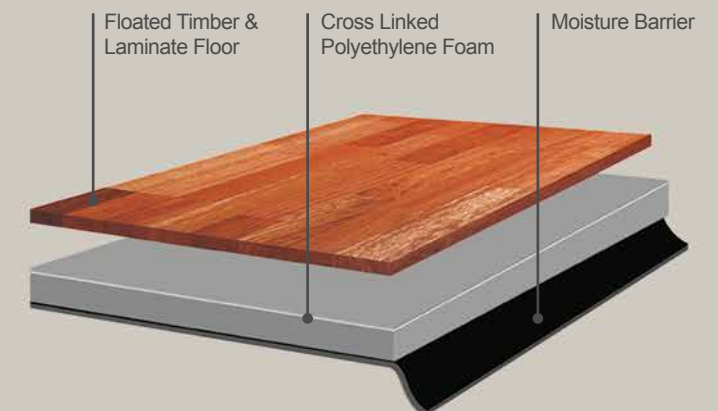

WE RECOMMEND THE USE OF...

DUNLOP
AQUACOUSTIC

Dunlop Aquacoustic is a specialist hard flooring underlay that provides unsurpassed acoustic performance. Incorporating a 200 micron moisture resistant barrier, Aquacoustic offers superior moisture protection. This product includes an incorporated tape seal on the end of the rolls for increased water vapour resistance.

TECHNICAL SPECIFICATIONS

Thickness	3.0 mm
Roll Length	20.0 m
Roll Width	1600mm + 200mm overlap
Roll Size	32 m ²
Water Vapour Resistance	203 S _d

Thermal resistance is a measure of a material's ability to resist heat transfer. The higher the R-value, the better heat transfer of that material.

The minimum requirement as set by the **NCC** is **62 dB** (the lower the **dB** result for the flooring assembly, the better the acoustic performance).
